

ENVIRONMENT POLICY

Sunstate Cement Ltd. is concerned with the quality of the environment and is fully committed to environmentally responsible management of the business, whilst meeting the expectations of its customers and providing a safe working environment for its employees.

Sunstate recognises the need to protect the environment in order to allow sustained economic development for the long-term benefit of the community.

Our business must be conducted in such a way that adverse environmental impacts arising from dust emissions, waste discharge, noise and other sources are controlled, and minimised or eliminated where possible. It is the duty of us all to exercise care in our work to ensure that this goal is achieved and maintained, and to ensure compliance with the requirements of the Environmental Protection Act by the use of appropriate equipment and processes, and by regular testing and systematic audits.

W. Abbott (Bill)

Chief Executive Officer
